Your “Above & Beyond” Training Program

Expand your team’s development by combining the expertise of our learning consultants with an optional learning program designed to maximize performance and grow talent.

OUR LEARNING CONSULTANTS WILL PERSONALIZE YOUR LEARNING PROGRAM

Consider which approach works best for your business—letting your employees self-select from hundreds of training courses or working with a learning consultant to structure a learning program that meets your company’s needs. When you partner with Extensis, we’ll offer you the latter.

We’ve worked with entrepreneurial businesses for over two decades. We know growing businesses are most concerned with four areas of employee development. Our learning consultants will develop a training schedule that fits your organization’s needs—as a stand-alone program or one that integrates with your structured training program.

OUR COURSES ADDRESS WHAT ENTREPRENEURIAL BUSINESSES NEED MOST

We’ve partnered with Skillsoft[®], a leader in learning and talent management, to offer an optional learning program that covers what small businesses value most.

Manager Training

- Facing the Management Challenges of Difficult Behaviors & Diverse Teams
- Being a Fair & Caring Manager
- Managing Multi-Generational Employees
