

HRCLOUD

Next Generation HR Technology

Your business needs an easy-to-use HRIS solution designed to simplify HR and let you focus on growth.

LET US HELP YOU GROW FASTER

The combination of HRCLOUD and personalized services from our HR experts will save you countless hours every week on HR functions, enabling you to focus on your customers and grow your business. HRCLOUD delivers world-class services for onboarding, payroll, PTO, benefits, HR, HR self-service, and reporting. When more help is needed, your dedicated service team is just a click or call away.

HOW HRCLOUD CAN HELP YOUR BUSINESS

- **It increases productivity because it's easy to use.** All users will find HRCLOUD, our secure, 100% cloud-based HRIS solution, easy to use. Our modern platform enables your team to get the information they need quickly and then get back to work.
- **It integrates all your HR data.** Business owners will appreciate the benefits of housing all HR data in one cloud-based database. It eliminates IT support, infrastructure costs of legacy systems, the need for multiple systems, cumbersome manual processes—and with HR and payroll in one HRIS solution, it enables PTO to flow directly into payroll.
- **It makes it easier to manage your employees**—whether they're in one location, multiple locations, or working remotely.
- **It puts your brand front & center.** It's important to give your employees a consistent brand experience. It helps build employee satisfaction and pride. That's why they'll see your brand logo on HRCLOUD.

HRCLOUD ALSO DELIVERS ON THESE PROMISES...

Fast & Efficient

- **The HRCLOUD App gives employees even more flexibility** to access their HR data.
- **For employees, it's mobile-optimized—in English and Spanish**—so they can do PTO and benefits enrollment on smartphones. Side-by-side benefit comparisons and costs help them make better benefit decisions.
- **Managers can configure dashboards to their needs and preferences**—giving them quick access to favorites and frequently-used features.
- **Administrators receive the highest level of access** and can complete key functions in HRCLOUD.

More Control

- **Employees have greater flexibility** to access and update their personal information for payroll and benefits.
- **Managers can manage their teams** with easy access to approve PTO and track time off, run reports for their team, and more.
- **Complete payroll functionality.** You can review timesheets, calculate payroll, preview reports, approve payroll, and much more.
- **Data audit for all transactions.** You can effortlessly review every step of every transaction.
- **Role-based permissions** provide powerful new security capabilities.

Simpler HR

- **Flexible communications**, so you can send messages to specific people, all employees, and post general announcements.
- **Helpful how-to guides** provide step-by-step guidance to users.
- **Intuitive new hire onboarding** streamlines the process and captures required employee demographics.
- **Real-time, impressive search function** quickly delivers data based on search criteria and filters.
- **Real-time reporting** is easy with 50+ pre-built reports. Data Retriever gives managers even more access to stored data. Analytics help you better manage operations and improve decisions.
